

waste management sites

Hills' aim is to provide customers across Wiltshire and neighbouring counties with a complete one-stop waste management service. Central to that aim is the operation of seven multi-faceted sites as shown below.

The major landfill and recycling sites at Lower Compton (Calne), Chapel Farm (Swindon) and Parkgate Farm (Purton) are pivotal to the waste management strategies for Wiltshire and Swindon.

Together, they offer a comprehensive recycling service for both businesses and households, with specialist disposal facilities for inert, non-hazardous and hazardous wastes.

The standards demanded at each site are high, the aim being to minimise impact on the environment and on neighbours in local communities.

waste management sites

CHAPEL FARM (SWINDON)

The Hills waste management centre at Chapel Farm, Blunsdon is just off the A419 to the north of Swindon. Landfill operations at Chapel Farm were completed in

October 2014 - but the site is still used as a transfer station for the onward transportation of waste and a skip sorting operation for commercial and demolition waste.

KEY FEATURES

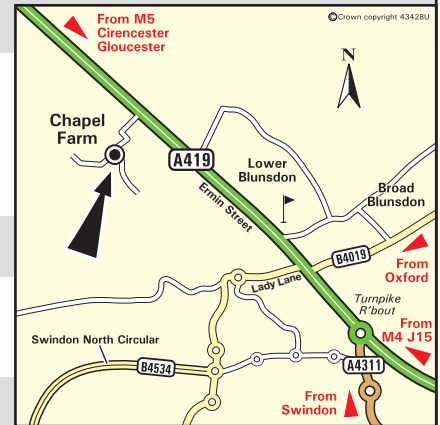

- Transfer station
- Waste water treatment service
- Mechanical waste recycling
- Gas to energy
- Leachate treatment
